

100

Four examples of cursive capital letters are shown, each on a separate line. The letters are 'b', 'd', 'x', and 'z'. Each letter is formed with a single continuous stroke, demonstrating the fluidity of cursive handwriting. The 'b' and 'd' have a large loop on the right and a smaller loop on the left. The 'x' is formed by two intersecting loops. The 'z' is formed by a series of connected loops.
